

Christopher Waltzinger

[linkedin.com/in/chris-waltzinger/](https://www.linkedin.com/in/chris-waltzinger/) | cs.waltzinger@gmail.com | github.com/cswaltzinger/portfolio

SKILLS

Technologies: Linux, NetBSD, Docker, Kubernetes, AWS, Elastic Stack, PostgreSQL, Neo4j, RabbitMQ, Kafka, Nginx, Wireshark, Openssl, GnuPG, Qemu, Git, Make, Tmux, Anaconda, Npm, Maven, Jira, Scrum

Languages: Python, Java/Kotlin, HTML, Javascript, C/C++, SQL, Bash/sh (shell script)

Libraries: Pandas, Numpy, Matplotlib, OpenCV, Mediapipe, Tensorflow, Google Gemini AI API,

Other Skills: Fluent in Spanish, Understanding of German and American Sign Language

EDUCATION

Stevens Institute of Technology, Hoboken, NJ 2025 - 2026
Masters of Science in Cybersecurity

Bucknell University, Lewisburg, PA 2020 - 2024
Bachelor of Science in Computer Science
Overall GPA: 3.8, Computer Science GPA: 4.0
2024 Computer Science Outstanding Senior Award
Dean's List: All Semesters

The Pingry School, Basking Ridge, NJ 2016 - 2020
Overall GPA: 3.8, High Honor Roll: All Semesters

WORK EXPERIENCE

Altamira Technologies Corporation, McLean, VA 2023
Software Engineering Intern (Summer)

- Spearheaded the development of software for multi-intelligence analysis and data science technologies.
- Implemented sophisticated entity resolution software within a distributed system framework.
- Orchestrated end-to-end deployment of software utilizing Docker and Kubernetes, ensuring optimal system integration.
- Engaged in agile development methodologies as a key contributor to a collaborative software engineering team.
- Conducted in-depth analysis of system architecture, identifying areas for enhancement.
- Demonstrated adaptability by implementing emerging technologies relevant to the project.

Bucknell University, Lewisburg, PA 2023 - 2024
College of Arts and Sciences - Computer Science Teachers Assistant

- Engineered auto-grading software which significantly enhanced staff productivity.
- Provided instruction and tutoring in a classroom/lab settings to over 60 students.
- Conducted office hours for project assistance and code troubleshooting.
- Updated course materials to align with current industry standards, ensuring that students receive relevant and up-to-date content.

College of Engineering - Computer Science Tutor 2022 - 2024

- Provided individualized instruction and mentorship to students.
- Tailored instructional approaches to accommodate diverse learning styles and skill levels.
- Assisted students in grasping technical concepts: Computer Architecture, Algorithm Design, Computational Theory.

Athletics Tutor for Computer Science 2023 - 2024

- Personally selected by professors to deliver specialized tutoring for college athletes.
- Collaborated with academic staff to address individual learning needs and challenges.

Borough of Beach Haven, Beach Haven, NJ 2015 - 2025
Ocean Lifeguard and Beach Patrol (Summers)

- Provided mentorship and training for new guards during the summer seasons.
- Achieved early promotion to Senior Lifeguard, assuming additional responsibilities.
